Bangalore

Profile

Senior Java Backend Developer with over 7 years of experience designing, developing, and deploying scalable web applications and microservices. Proficient in Java frameworks such as Spring Boot, and Hibernate. Skilled in working with RESTful APIs and databases, with a strong focus on delivering clean, efficient, and high-performance backend code. Adept at troubleshooting complex systems and working in fast-paced agile environments.

Skills

Microservices • Spring Boot • RESTful Webservices • Hibernate • Java 8 • Core Java • Maven • Oracle JET • HTML, CSS, JavaScript • SQL

Experience

Capgemini Software Solutions India
Senior Software Engineer

April 2021 - Present

- Collaborated on designing and implementing microservices across applications, optimizing for configurability and performance.
- Led the design and implementation of RESTful APIs for seamless integration between client systems and external services.
- Worked closely with client stakeholders to gather requirements, propose technical solutions, and ensure successful project delivery.
- Optimized batch processing performance, reducing execution time significantly.
- Collaborated with front-end developers and QA teams to ensure the smooth deployment of features, enhancing user experience and system reliability.
- Provided mentorship and technical guidance to junior developers, fostering a collaborative and efficient team environment.

Oracle Financial Services Software
Software Engineer

August 2017 - March 2021

- Contributed to the development of RESTful web services, facilitating secure data exchange between the front-end and back-end systems.
- Assisted in the development and maintenance of backend systems for financial applications using Java, Spring, and Hibernate frameworks.
- Participated in debugging and resolving production issues, improving application stability and performance.
- Contributed to the development of RESTful web services, facilitating secure data exchange between the front-end and back-end systems.

Robert Bosch
Intern

January 2017 - June 2017

- Assisted in the development of Java-based applications for internal tools and automotive projects under the guidance of senior developers.
- Participated in team meetings and code reviews, learning industry best practices for software development.

Achievements

Star of the Month

Acknowledged as the Star of the month for consistently delivering outstanding results and contributing to team success

Promotion

Promoted to C1 level for outstanding performance in delivering projects to the client on schedule

Best Team Performance

Played a significant role in securing the Best Team Award across multiple sprints in 03/2023, 07/2023, and 08/2023.

Education

Master of Computer Applications - 2017

BMS College of Engineering

Client Accounts Handled in Capgemini

MBB Labs - Maybank

Central National Bank
